

Single-occupancy "Buy Out" Room Agreement

Students who currently do not have a roommate may request to have their room converted to single occupancy for the remainder of the academic year. The Housing & Dining Services Office reserves the right to approve or disapprove requests as necessary due to occupancy management concerns. In the event of an emergency, these agreements can be nullified at the discretion of the Housing Office. By completing and returning this form to the Housing Office, the student agrees to have the single room charge [(current semester rate minus telecommunications charge of 154.50) divided by 2] added to his/her account. This fee is prorated if the move occurs during the semester. This fee is prorated if the move occurs during the semester. For example, the full semester single room additional charge for Pritchard Hall (semester rate \$1,827), would be \$837.00. As of 25 February, this additional fee would be prorated to \$550.53.

A limited number of rooms that become completely vacant due to both students moving out and/or no-showing for the fall term may be available for students if they wish to pay for single occupancy. A waiting list is available in the main housing office in New Hall West, Suite 144 for these rooms. These are available on a first-come, first-served basis; however, they do not occur often.

Students who do not purchase single occupancy have contracted for a multiple occupancy room. Vacancies in multiple-occupancy rooms are assignable at any time during the semester. Students in these rooms may not refuse roommates assigned by the Housing & Dining Services Office.

All furniture must remain in the current room.

All rooms will return to multiple-occupancy status for the next academic year (except for the permanent single-occupancy rooms in Payne).
